

University Library Services for RESEARCH STUDENTS

Access a range of library services to help you:

- **identify** what information is required for research
- **find** the right information to support the research process
- **use** the right information most effectively

LEARN ABOUT RESEARCH SKILLS

Postgraduate ELISE

- aims to equip you with the research skills you will need to get started in your postgraduate program
- provides advice on the ethical use of information

INFORMATION - HOW TO FIND IT & USE IT

Subject guides

A starting point for your research, bringing together core resources for specific research areas, e.g. Mechanical Engineering.

How to Use ... Guides

Find appropriate information faster with easy step by step instructions. Guides include Using the Catalogue, Using Sirius and Using the Databases.

Database Helpsheets

Learn how to use specific databases more effectively. Other user guides and helpsheets can be found on database Help pages.

NEED MORE HELP?

Research Consultations

Make an appointment for a customised consultation with a discipline expert. Discover the best resources available in your field, e.g. databases, e-journals, print publications. Become more confident in knowing what you need and where to find it.

libraryinfo

Need to ask a question or get help using Library resources? Call 9385 2650, make an online request at info.library.unsw.edu.au/help, or ask at the Loans & Information Desks in the Main Library, COFA Library or Freehills Law Library.

OTHER SERVICES

Interlibrary Loan service

Access research material not held at the UNSW Library by making an Interlibrary Loan request:

- access the Catalogue (LRD)
- log into Your Borrower Record
- select the ILL Request tab

UNSWorks

UNSWorks is an online repository of UNSW research output. It enhances the value and impact of UNSW research by making it more visible and accessible globally, free of charge.
